Interreg Europe covers all **27 EU Member States** plus **Albania, Bosnia and Herzegovina, Moldova, Montenegro, North Macedonia, Norway, Serbia, Switzerland and Ukraine.**

Interreg Europe is an interregional cooperation programme co-financed by the European Union. It belongs to the European territorial cooperation goal of the cohesion policy known as Interreg.

The programme helps local, regional and national governments across Europe to develop and deliver better regional development policies.

Interreg Europe is dedicated to capacity building through the exchange of experience and good practices in all priorities of the EU cohesion policy via:

- **Interregional cooperation projects**
- **Policy Learning Platform services**

Interregional cooperation projects

Authorities from different regions in Europe work together on a **shared regional development issue**. They exchange experience and transfer good practices in order to improve their regional development policies. The partners work together for **several years**:

- to identify new solutions to their territorial challenges and integrate them in their regional development policies
- to test new and innovative approaches with pilot actions when relevant

Good practices

Our projects share thousands of successful good practices related to regional development policies. By implementing the lessons learnt from the cooperation, the projects achieve tangible and measurable results.

**Get inspired for better policies
in your region**

*[www.interregeurope.eu/
policy-solutions/good-practices](http://www.interregeurope.eu/policy-solutions/good-practices)*

Explore thousands of expert-validated good practices identified by our projects and beyond. Pick up ideas relevant to you and get in touch with people who tested them on the ground for further inspiration.

Policy Learning Platform

The Platform builds on projects' achievements and provides continuous policy learning for all interested policymakers and our community members. The Platform expert team offers a range of policy-learning services. You can:

- find existing policy solutions in our good practice database and thematic publications
- join thematic events and connect with like-minded people
- get policy advice from the Platform experts and relevant peers on your specific regional challenge

**We provide access to knowledge,
expertise and people.**

Peer review

This service can help you resolve your policy challenge with relevant peers and the Platform experts.

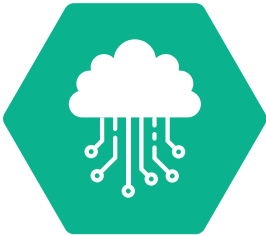

**Ask for your
peer review**

peer-review](http://www.interregeurope.eu/peer-review)*

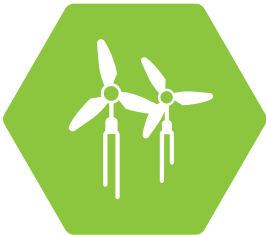

Our topics

Our **cooperation projects** and **Platform** contribute to all priorities of the EU cohesion policy.

Smarter Europe

- Research & innovation capacities
- Digitisation
- SME competitiveness
- Skills for S3 and industrial transition
- Digital connectivity

Greener Europe

- Energy efficiency
- Renewable energy
- Smart energy systems
- Climate change
- Water management
- Circular economy
- Nature & biodiversity
- Zero-carbon urban mobility

More connected Europe

- Sustainable TEN-T
- Sustainable mobility

More social Europe

- Employment
- Education
- Social inclusion
- Integration of third-country nationals
- Health care
- Culture and sustainable tourism

Europe closer to citizens

- Integrated urban development
- Integrated non-urban development

Better policy governance

- Any issue related to the management of regional development policies (e.g., evaluation and monitoring, public procurement, state aid)

Interreg Europe

brings **policymakers**

and **practitioners**

involved in regional

development

together in an **active**

community.

Anyone can join this community to share **knowledge** and **learn** from the innovative and sustainable solutions of others.

If you are involved in regional development policies:

**Join the Interreg
Europe community**
